## EQT Credit secures commitments totalling EUR 350 million

- EQT Credit secures commitments of EUR 350 million
- Focus on investments in debt of operationally sound but over-leveraged mid-sized European companies

EQT Credit Limited has successfully closed the EQT Credit fund. EQT Credit Limited will be advised by EQT Partners' experienced team of credit professionals led by Paul de Rome. The fund's commitments originate from the strong support of existing EQT investors as well as a number of new high quality global investors. The investor base includes pension funds, insurance companies and family offices.

The EQT Credit fund will focus on investing in the debt of operationally sound but over-leveraged mid-sized European companies. The fund seeks to be a mid to long-term investor and has the flexibility to make investments in the secondary market as well as by providing new funds where traditional sources of capital are unable to provide a satisfactory solution for stakeholders.

It is anticipated that the thorough diligence-oriented approach taken by EQT Credit Limited and support from EQT's network of industrial advisors will provide the fund with an advantage in investment selection.

Paul de Rome, Co-Head of EQT Partners' Credit Team comments: "We are happy with the positive outcome of the fundraising, despite an extremely challenging market environment. Our view is that with the support of EQT's global industrial network, the fund is in an excellent position to deliver on its strategy."
