LOREN BOSTON JOINS MVISION PRIVATE EQUITY ADVISERS

Fund Raising Veteran Joins Leading Independent Advisory Firm

Loren Boston

New York, NY, July 18, 2016 – MVision Private Equity Advisers, one of the leading independent international alternative assets advisory firms, announced today that Loren A. Boston has joined the firm as a senior managing director to work alongside Mounir Guen and Hussein Khalifa, founders of MVision, and it's regional heads, on the continuing expansion and build-up of the firm's position in the market. Mr. Boston has a strong proven track record of skills and experience which will contribute significantly to the existing strength and reputation of the firm. He will be working from MVision's New York office.

With more than 30 years of Wall Street experience, Mr. Boston brings to MVision a large network of relationships in the private equity and investment banking community. His most recent role was as President and COO of Hycroft LLC, a specialized investment bank advising the alternatives investments market. For fifteen years prior to that, Mr. Boston focused exclusively on fund raising, as the Global Head of Origination for Merrill Lynch's Private Equity Funds Group (2004 – 2010), Head of the Private Equity Fund Group at Citigroup Global Markets (1999 – 2004) and in senior fund raising positions at Eaton Partners and BT Alex. Brown.

Mounir Guen, founder of MVision, said "We are very much looking forward to having Loren join us. Loren Boston is one of the founders of the placement business and a leader in the industry. The deep experience, skills and knowledge he will bring will be a game changer in positioning us for the next wave in the market."

Mr. Boston said: "It's a great pleasure to join MVision and to have the opportunity to work with such a strong and leading global franchise. I have known Mounir "Moose" Guen for many years, both as a good friend and strong competitor. I am committed to originating and executing mandates for leading private equity firms, and there is no better place to do that than MVision."
